## **PRESIDENT'S NOTE**

For those of you that know me, know that I am not a man of few words. Today is an exception. Finding something to write about is not coming easy.

I've thought about the 3-1/2 years I've been President, about the remaining six months of my term and even more important than that is the months that follow when I leave office.

Who will speak, who will act or will there be silence? I hope for one that this will not be the case
