

## Central Connecticut Woodturners

A Chapter of the American Association of Woodturning

Dedicated to the Advancement of Woodturning  
www.ccwoodturners.org

### Next Meeting:

Join us on Zoom on Tuesday, March 22<sup>nd</sup>, 2022 at 7:00pm. Log in early at 6:30pm for social ½ hour!! We will be talking about gouges this month, and the demo will be Kip Lockhart with a cross cross bowl demo.

### President's Note

Hello woodturners,

Finally, Totally Turning is almost here. It looks like it's packed with great turners and demos. Anybody going? If this is your first time, prepare yourself, take notes, take photos, write down questions you want to ask, make a list of tools to purchase and don't wait until Sunday to pick them up as the vendor might run out. Take time to visit the NWA exhibits. You will be amazed. I am still working on getting a day off. If I can, and you need me to pick something up for you, let me know.

I am hoping we can have our first in person meeting next month, and are working on a pen turning event and a workshop soon. Who is ready?

This month we will be talking about gouges, the different types and their uses. Kip has a demo on making his cross-cross bowls, and if time allows, I can turn an egg or a cross. I know some of you have turned eggs before, so share your experiences and holding techniques.

We are still working on locations to hold in person meetings. We may have to deviate from every fourth Tuesday of the month to fit in with location availability. If you have a lead on a location let us know.

I have a question for all,

What is it about woodturning that keeps you turning?

For me it is stress relief, a challenge and a creative outlet.

What about you?

See you soon,  
John Webber

## February 2022 meeting minutes:

### CCW Meeting minutes Feb 22<sup>rd</sup>, 2022

14 members on the Zoom call. Meeting began at 7:09pm.

No new members. Todd Moler (guest) just got back into wood turning.

Treasurer's report: Balance as end of December 2021 \$2,835.79. \$140.00 in dues collected in January 2022. New balance = \$2,975.79 Dan Merlo and Lynda Zibbideo accept. All in favor.

Carvers having various events in May. We can join them but there isn't electricity. Cannot meet at Carousel Museum. When the carvers find a new location, they will let us know, and want us to join. Possible cookout again this year.

Totally turning end of March in Sarasota NY.

National event in Chattanooga in June or July 2022.

If CCW can get a place in March, everyone seems to be willing to meet in person. The hope is to meet in Manchester at the school.

Show and yell.....Corie, John, Rob, Kim, Kip, Dan, Lynda, Dave, Todd.

Talk about chucks....Nova Titen 3 is a big chuck. Super nova 2 works on midi lathe or any lathe . 3G is smaller. Not necessarily thickness of tenon, it is diameter of tenon.

How to cut a tenon... Use a bowl gauge, finish with spindle gauge, and maybe use a skew.

Multi-axis turning...Kip made a wooden template, then put numbers on tenons, then put on lathe. 1 to 2, 2 to 3, and 3 to 1. Headstock to tailstock (live center). Can do more than just 3 points. Look up Barbara Dill.

The founder of JT Turning Tools passed away-The family might have someone else take over the business but John does not have the contact info at this time. Also try Frugal vacuum chuck.

Wood cut coring jig. Tod Raines sb shipping to US in May 2022 ....Max cut 4. Cores up to 17 inch bowl. Woodturningtoolstore.com . Also has Elio drive with adjustable pins.

## FEBRUARY 2022 SHOW & YELL:
